International Symposium on Sediment
Management
7th edition

Free access to the conference

Laboratoire
Génie Civil
et géo-Environnement
Lille Nord de France

INTRODUCTION

I2SM is the International Symposium on Sediment Management lunched in 2008 in the city of Lille, France, with the aim of gathering researchers, industrials, engineering departments and waterway managers around the trans-disciplinary problems of sediment managements. The 7th edition, which was supposed to take place in 2020 in Lille, has been postponed to June 2021 due to the health crisis of the covid*.

After 13 years of success (Morocco in 2010, India in 2012, Italy in 2014, Canada in 2016, and Mexico in 2018), Lille will be again the host city for I2SM. To celebrate this event you are all welcome to participate at this special edition.

At this occasion several cultural activities will be proposed in order to discover this wonderful region "Hauts-de-France

**The symposium will be continued to be held face-to-face but may be adapted in the form of video or mixed format (face-to-face and video) depending on the evolution of the health context.*

MAIN TOPICS

- Sediment and water
- Characterization and monitoring
- Sustainable sediment management
- Management and decision-analysis tools
- Beneficial reuse and valorization
- Dredging, treatments and remediation
- Environmental impacts and regulation
- Green construction and circular economy

CONFERENCE FEES

Participants	Registration before 15 May	Registration after 15 May
Industrials	800 €	850 €
Researchers	500 €	550 €
Students	150 €	200 €
Gala Dinner		50€

COME TO LILLE !

Discover the diversity of Lille's heritage: the « Palais des Beaux-Arts », the 2nd most important museum in France. The belfry of town hall, a UNESCO World Heritage site, the fortification of « La Citadelle » built during the reign of Louis XIV, the « Notre-Dame de la Treille » cathedral, the Louvre Lens museum and more. Your stay at Lille will be a great opportunity to discover the famous local restaurants "Estaminet" that will offer you regional gastronomy: Welsh, Maroilles ... And do not forget the French pastry!
